

Letter No. 141/07/14 Date 24th Mar 2026

From

Ms. Amruta Priyambada, OAS-I (SB)
OSD, PHDMA, P & C Department

To

The General Manager (Admin)
OCAC, Acharya Vihar, Bhubaneswar

Subject: Request for Go-Live of Bilingual (Odia & English) CMS-Based Website of PHDMA
under URL <https://phdma.odisha.gov.in/> – regarding.

Sir,

With reference to the subject cited above, I am directed to inform you that the website of this Office has been revamped in accordance with the prescribed standards in both Odia and English languages. The same is now ready for deployment.

In this regard, it is to request that please take necessary action for hosting and making the bilingual CMS-based website live under the URL <https://phdma.odisha.gov.in/>. The duly filled-in *Hosting Application Form*, along with the *Security Audit Certificate* are enclosed herewith for necessary action. The existing hosting account details are furnished below for reference:

Host Name: EnITPHDMA-AC01

Further, the details of the *System Integrator (SI)* engaged for development and maintenance of the website are provided below for coordination:

M/s Sonydig Technology Pvt. Ltd.,
Room No-236, OCAC Tower,
Acharya Vihar, Doordarshan Colony, Gajapati Nagar, Bhubaneswar-751013
Email: sonydigtechnology@gmail.com
Mobile: 8763676042

You are, therefore, requested to kindly facilitate necessary coordination with the above System Integrator and take expeditious steps for making the website live at the earliest.

With best regards.

Yours faithfully,

Encls: as Above

24.3.2026
OSD, PHDMA

Memo No. 142 /PH

Dated. 24th Mar 2026

Copy with enclosure forwarded to Ms Sonali Satapathy, Director,
M/s Sonydig Technology Pvt. Ltd. for information and necessary action.

3.2 Operational since/ New Application:	2020
3.3 URL Details:	https://phdma.odisha.gov.in
3.4 Nature of Application:	G2C [✓] G2G [] G2B []

4. Server Requirement (VM) Details:

4.1 List of Web Servers (Fill the required fields as per requirement)

Sl. No.	Web Server with Version	OS with Version	Core (vCPU)	RAM (GB) (Virtual)	Disk 1 (OS)	Disk 2 (Data)	Ports	Any other
1	Apache 2	Ubuntu 22 LTS	5	8 GB	150 GB SSD	200 GB SSD		
2								
3								
4								

4.2 List of Database Servers (Fill the required fields as per requirement)								
Sl. No.	DB Server with Version	OS with Version	Core (vCPU)	RAM (GB) (Virtual)	Disk 1 (OS)	Disk 2 (Data)	Ports	Any other
1	Mysql 8	Ubuntu 22 LTS	5	8GB	100 GB SSD	200 GB SSD		
2								
3								
4								

4.3 List of Application/ Other Servers (Fill the required fields as per requirement)								
Sl. No.	Server with Version Detail	OS with Version	Core (vCPU)	RAM (GB) (Virtual)	Disk 1 (OS)	Disk 2 (Data)	Ports	Any other
1								
2								
3								
4								

5. Storage Requirement Details:

Sl. No.	Server or DB Server Name	System File Type	Disk (GB)	Type (Object/ File/ Block)	Any other
1					
2					
3					
4					
5					
6					

6. Network Requirements:

Sl. No.	Server Name	Public IP Required (Yes/ No)	Cluster IP Required (Yes/ No)	Any other
1				
2				
3				
4				
5				
6				

7. Cyber Security Audit Details:

7.1 Name of the Certifying Agency:	Imperium Solutions.
7.2 Certificate Issue Date:	21-03-2026
7.3 Copy of valid Audit Certificate: (Under Taking if Security Audit of Application Not Completed)	Yes [☒] No [☐]

8. VPN and FTP Credential Details:	
8.1 User ID and Authentication Detail:	To be provided by OSDC

9.1 Backup	As per OSDC Backup & Retention Policy for Shared Hosting.

DISCLAIMER

The VPN Service provides a secure communication channel for updating the application. This service is provided to facilitate the users to do remote updation of their sites hosted in OSDC. The VPN Services provided cannot control the content being updated and hence the services provided will be not responsible for the contents being updated. Also the VPN Service offered will not be responsible for security breach of the web sites by exploiting vulnerabilities in the site updating services (SFTP, SSH, SQL) and web services (HTTP). VPN Services offered will not be responsible for security breach of the VPN client software.

DECLARATION

I hereby declare that

1. The information provided is correct.
2. The password and user ID will be kept safe and will not be shared with others.
3. If the User ID and Password has been compromised, I will communicate the same without any delay to the OSDC VPN Administrator.
4. Address for communication **helpdesk.osdc@odisha.gov.in, helpdesk.osdc@ocac.in, Phone no: (0674) 2567395.**
5. Will not indulge in any activity and will not disclose information about OSDC VPN Services that may result in the breach of the OSDC facilities.
6. No attempt will be made to gain unauthorized access to other OSDC Websites and facilities.
7. The VPN User is responsible for the safety of the VPN Certificate, PIN, Username and Password used for accessing VPN Service.

I will comply with terms and conditions of OSDC VPN Services. If at a later stage any information is found to be incorrect or non-compliance with the terms and conditions will result in the cancellation of the DC issued by OSDC for OSDC VPN service.

7	User Enumeration	Low	CLOSED
8	Session timeout is high or not implemented	Low	CLOSED
9	Insecure HTTP resource loading (Mixed Content)	Low	CLOSED*
10	Missing Cookies Attributes	Low	CLOSED
11	Application Vulnerable to Clickjacking attack	Low	CLOSED
12	Information Disclosure	Low	CLOSED
13	Missing Security Headers	Low	CLOSED
14	Outdated Plugins	Low	CLOSED*
15	Vulnerable and Outdated Components	Low	CLOSED*

16	Autocomplete is enabled	Low	CLOSED
17	Account Lockout Policy Not Implemented	Low	CLOSED

The application can be hosted in the Production Environment after implementing the compensatory controls.

General Recommendations

Production Hosting Environment

1. Deploy a Web Application Firewall ahead of your application facing the Internet and allow only relevant traffic to flow to your web server.
2. Fine tune the firewall rules such that only specific ports and IP addresses are allowed access to your application.
3. Enable, capture and retain application logs so as to be able to trace a security incident, in case it becomes necessary to do so.
4. Utilise services of 3rd party vendors to check for malicious activities like web defacement, etc.
5. Ensure that the Operating system, database and application is hardened.
6. Ensure that the Operating Systems, Database and applications is the latest stable version.
7. Application should undergo security testing annually or whenever any changes are implemented in the application functionality, whichever is earlier.
8. Ensure that all vulnerabilities, irrespective of their criticality, are resolved asap.
